</table>

**Standards Features**

- **General Features:**
  - Engine (CCEC Cummins KTA38-G2)
  - Radiator 40°C max, fans are driven by belt, with safety guard
  - 24V charge alternator
  - Alternator: single bearing alternator IP23, insulation class H/H
  - Absorber
    - Dry type air filter, double fuel filter, oil filter, coolant filter
  - Main line circuit breaker
  - Permanent Magnet Generator (PMG)
  - Standard control panel
  - Two 12V batteries, rack and cable
  - Ripple flex exhaust pipe, exhaust siphon, flange, muffler
  - User manual

Prime Power (PRP): Prime power is available for an unlimited number of annual hours in variable load application, in accordance with GB/T2820-97 (equiv ISO8528); A 10% overload capability is available for a period of 1 hour within a 12-hour period of operation.

Standby Power Rating (ESP): The standby power rating is applicable for supplying emergency power for the duration of a utility power interruption. No overload, utility parallel or negotiated outage operation capability is available at this rating.

**Sales Promises**

Baifa Power provides a full line of brand new and high quality products. Each and every unit is strictly factory tested.

Warranty is according to our standard conditions: a, 15 months, counted on the day BAIFA sold to the first buyer; b, One year after installation; c, 1000 running hours (accumulated); subject to the earlier one. Service and parts are available from Baifa Power or distributors in your location.

Specifications may change without notice

## ENGINE DATA

- **Manufacturer / Model:** CCEC Cummins KTA38-G2, 4-cycle
- **Air Intake System:** Turbo, Air/Water cooling
- **Fuel System:** PT type fuel pump, EFC
- **Cylinder Arrangement:** 12 in "V"
- **Displacement:** 37.8L
- **Bore and Stroke:** 159*159 (mm)
- **Compression Ratio:** 14.5:1
- **Rated RPM:** 1800rpm
- **Max. Standby Power at Rated RPM:** 896KW/1200HP

### Exhaust System
- **Exhaust Gas Flow:** 3679L/s
- **Exhaust Temperature:** 502°C
- **Max Back Pressure:** 10kPa

### Air Intake System
- **Max Intake Restriction:** 6.2kPa
- **Consumption:** 1369L/s
- **Air Flow:** 36146 L/s

### Fuel System
- **100% (Prime Power) Load:** 214 g/kWh
- **75% (Prime Power) Load:** 219 g/kWh
- **50% (Prime Power) Load:** N/A
- **100% (Prime Power) Load:** 200.2 L/h

### Oil System
- **Total Oil Capacity:** 135L
- **Oil Consumption:** ≤4g/kWh
- **Engine Oil Tank Capacity:** 121~151L
- **Oil Pressure at Rated RPM:** 310-448kPa

### Cooling System
- **Total Coolant Capacity:** 252L
- **Thermostat:** 82-93°C
- **Max Water Temperature:** 104°C
## Alternator Specification

### General Data

Compliance with GB755, BS5000, VDE0530, NEMAMG1-22, IED34-1, CSA22.2 and AS1359 standards.

Standard Features

◇ Baifa Standard Auto Control System
◇ Starting batteries (Maintenance-Free & Watering-Free) with connective wires
◇ Exhaust System (including until muffler)
◇ MCCB
◇ Permanent Magnet Generator (PMG)
◇ Special tool for Cummins engine
◇ Oil Drain Valve
◇ Documents

Options

◇ Base Fuel Tank
◇ Daily Fuel Tank
◇ Battery Charger
◇ Engine Heater
◇ Water Separator
◇ Alternator Heater
◇ Soundproof Type
◇ Trailer Type
◇ Spare Parts
◇ Remote Control Panel
◇ Automatic Transfer Switch
◇ Paralleling System
◇ Switch box

Standard Control Panel

Baifa Standard Control Panel uses micro processing technique integrating digital, intelligent and network techniques which can carry out functions including auto start/stop, data measure, alarming. The controller uses LCD display, optional Chinese and English display interface with operation easy and reliable. It can be widely used in all types of generator automatic control system for compact structure, advanced circuits, simple connections and high reliability.

Auto Module Control Panel

Auto Module Control Panel is the configuration for nobody on duty controlling generators. This kind of panel adopts auto module control system, with large LCD display to show the menu. Features: MRS10-can receive remote output signal from ATS and realize auto start and stop of generators. MRS16-can realize all functions of MRS10, add RS232 interface which can communicate with PC to realize remote operation. AMF25-Auto Mains Failure controller, can realize all functions of MRS16, furthermore can detect ATS and control directly.

Auto Parallel Control Panel

Automatic Parallel Control Panel This new automatic parallel system adopts intelligent modules, inserted and folded installed, no need the peripheral relay and logic circuit. The main switch adopts electronic breaker or frame breaker, combined together with the generator, which is very reliable. One generator, one panel. The panel can be used both for singly and parallel. It is only need to parallel generator with such panel when the capability needs to be enlarged in the future.
